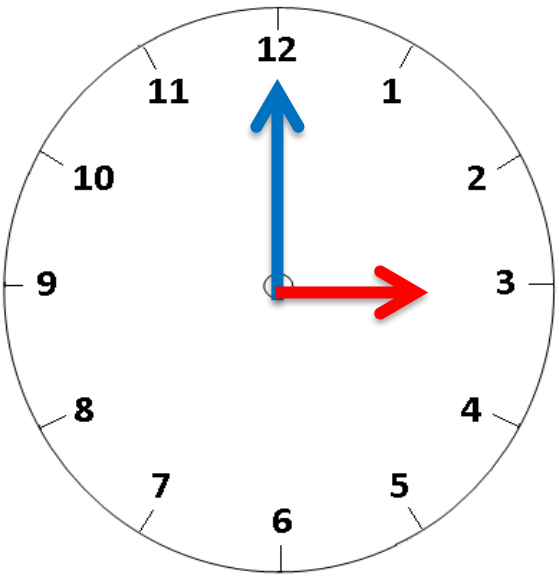
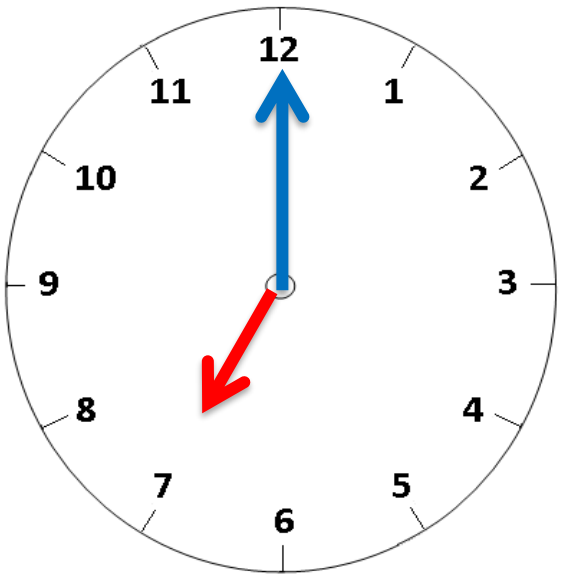
Beginning to tell the Time (Mrs Armstrong's Math lesson)

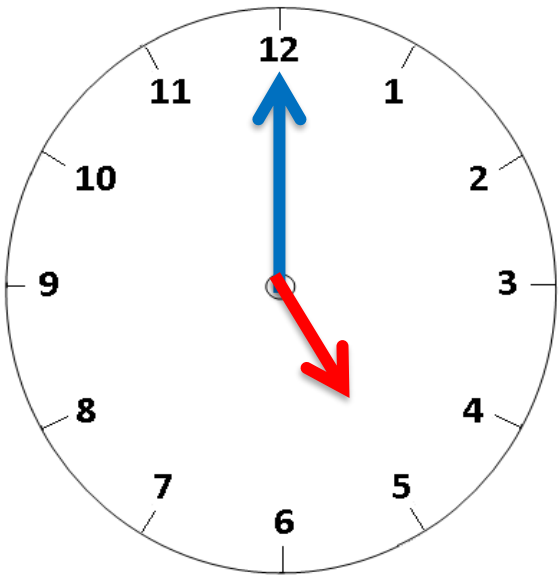
Can you read the time on the clocks that have hands and write the answers in the boxes?

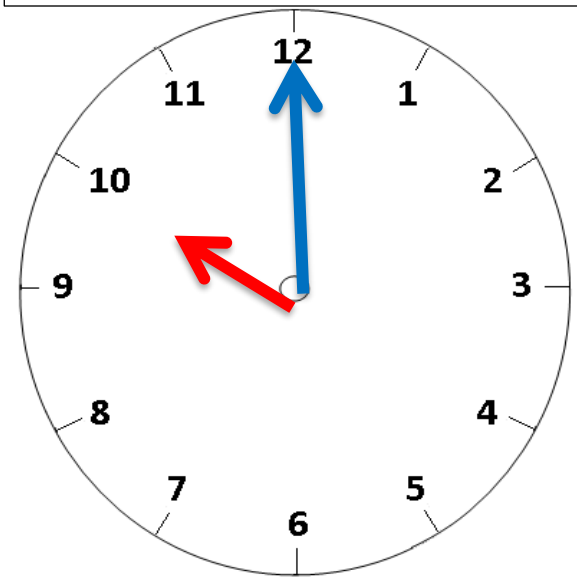
On the blank clocks can you draw the hands in the correct places to show the time stated?

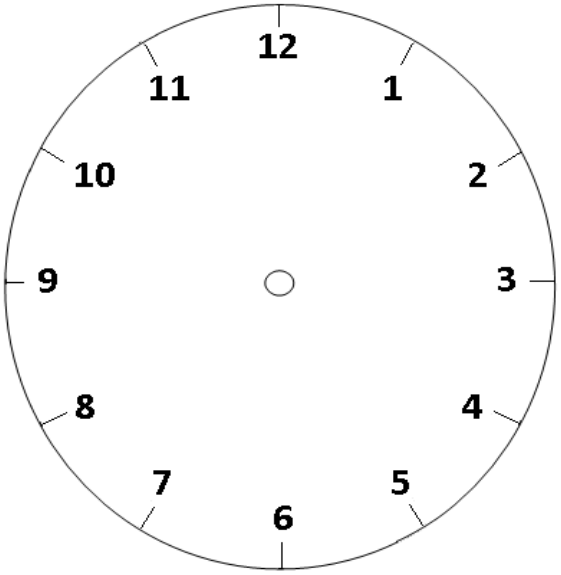
(interesting fact: the term o'clock is short for 'of the clock'- it was used to describe time taken using a clock rather than sundials that they used in the past)



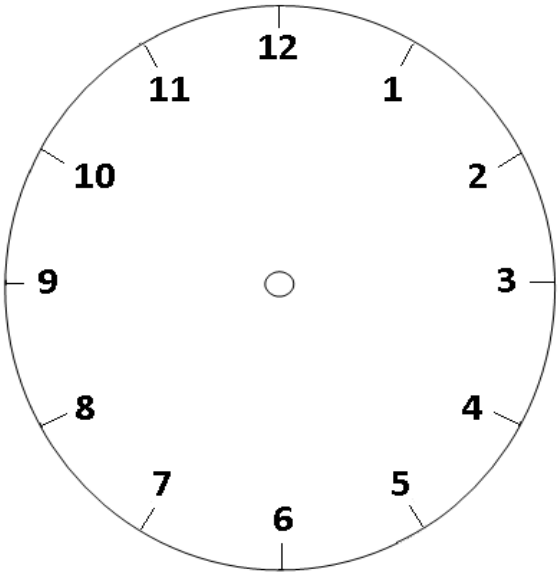




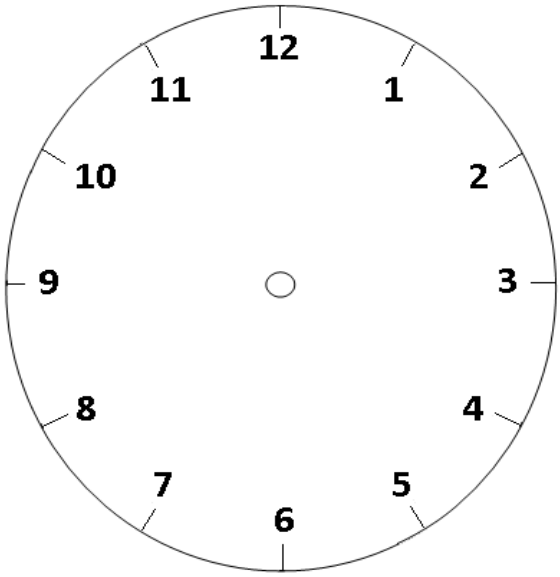




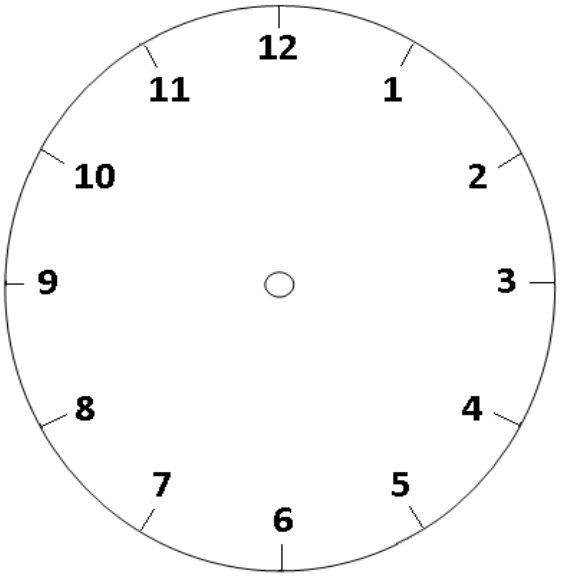
4 o'clock



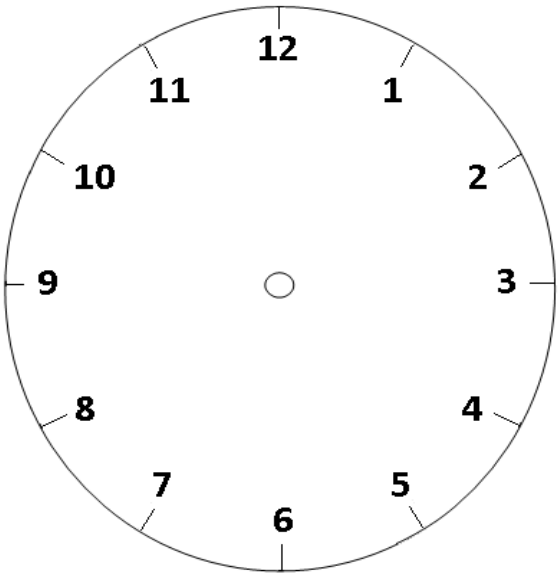
1 o'clock



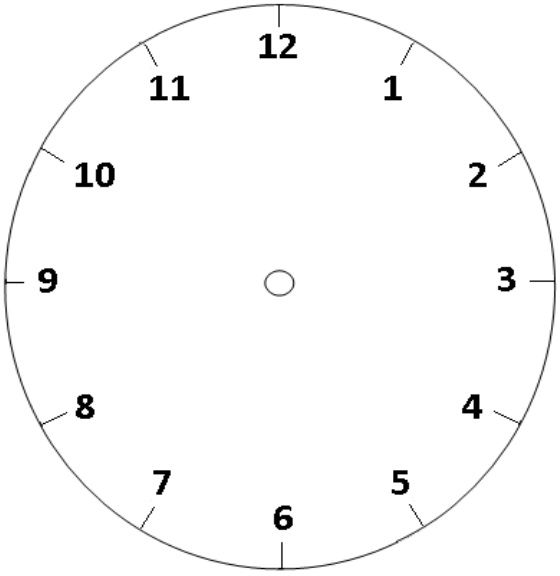
9 o'clock



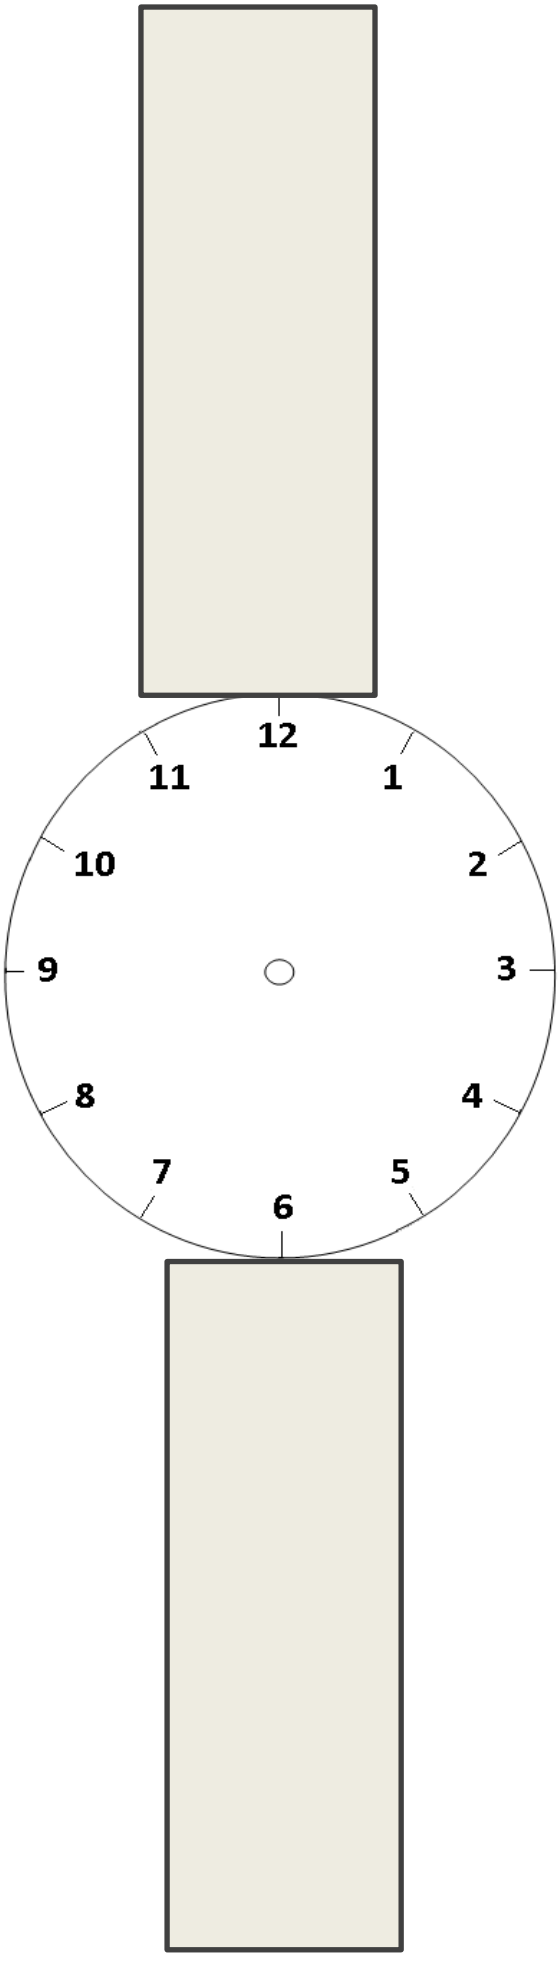
2 o'clock

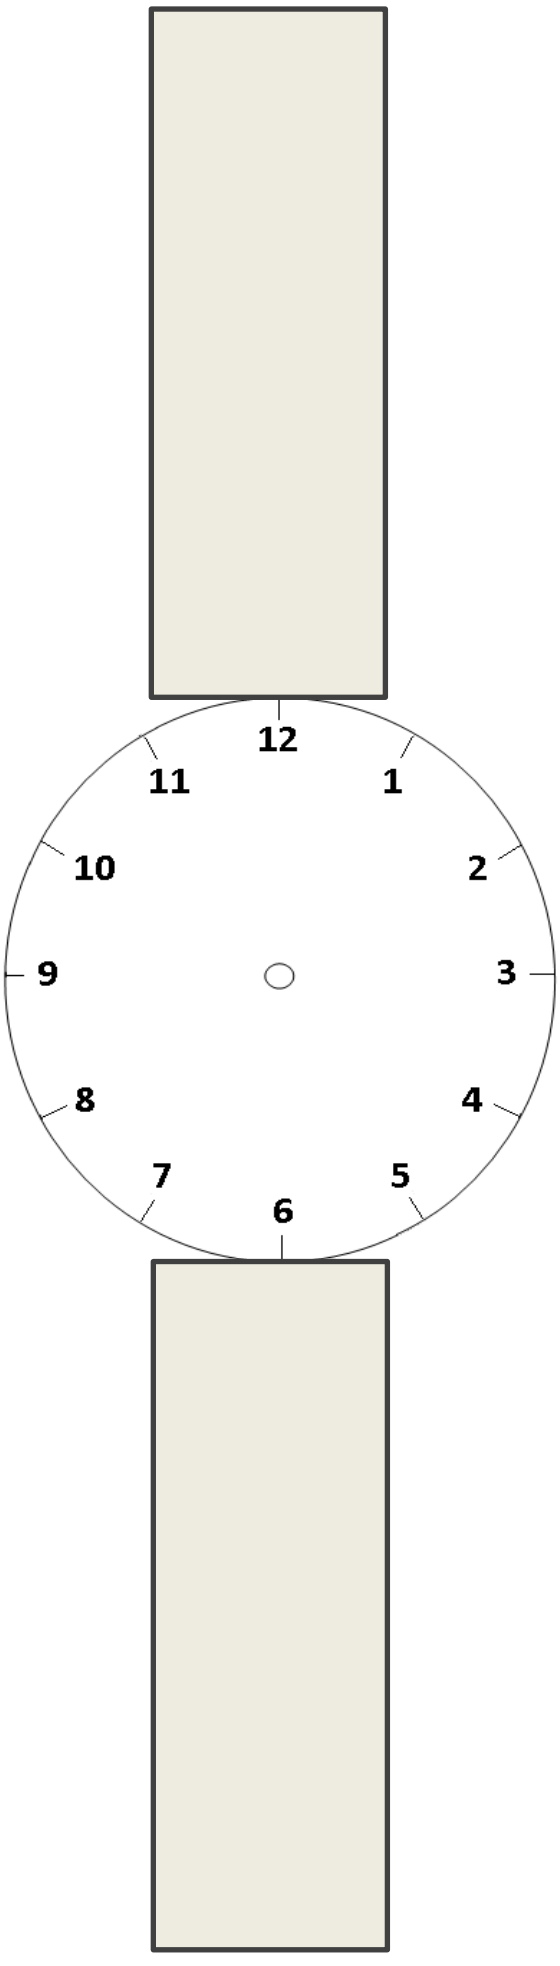


11 o'clock



8 o'clock





Cut these out to make your own watch, what time will be on your watch face?
