

WB: Monday 18<sup>th</sup> January 2020

LI: Can I write the corresponding sum to a word problem and find the answer?

If you had 10 jars of strawberry jam and 3 of them smashed, how many jars would you have left?

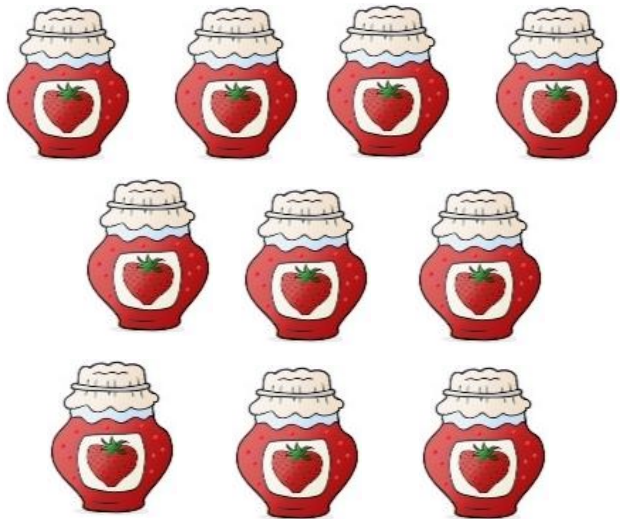

The Joker captured 9 people, Batman rescued 5. How many people does The Joker still have?

If you had 8 LOL Dolls and gave 4 of them to your friends, how many LOL Dolls would you have left?

$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$
