

Once you have your information, you can start to transfer it onto the outline map.

Make sure you create a key to show the different states these volcanoes are currently in – maybe three different colours of triangle?

E.g.

Extinct

Dormant

Active

### Extension

1. Which areas around the world seem to have most volcanoes?

---

---

2. Explain why this happens.

---

---

---

3. When volcanoes erupt, they can disrupt people's activities and lifestyles many hundreds of miles away? Give an example of this from the last twenty years.

---

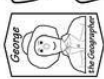

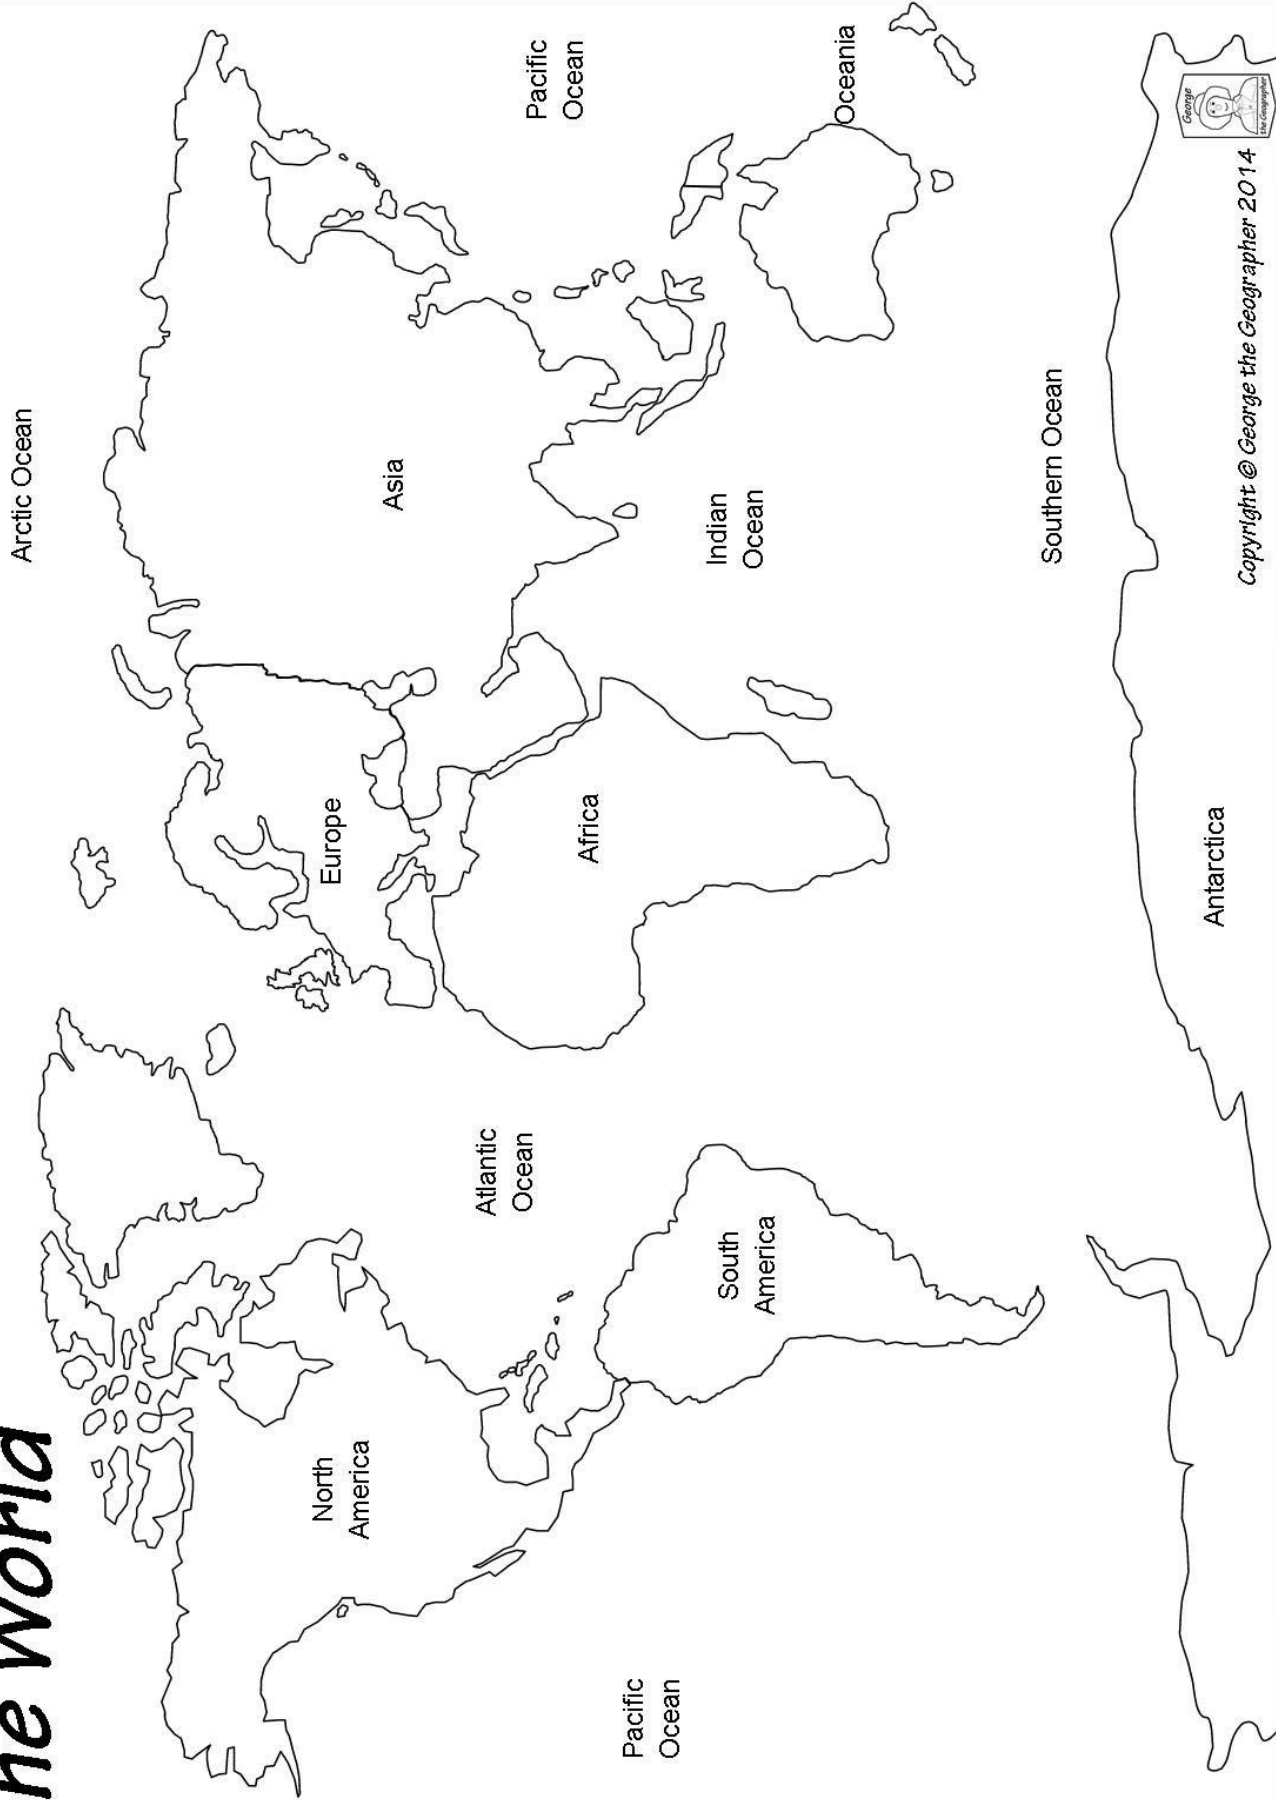

---

---

---
